## SUMMARY

An enthusiastic professional who is passionate about coding and design. After successfully completing the Zero to Mastery Web Developer program in 2023, I'm eager to continue furthering my skillset while also leveraging my unique background as an architect and designer to contribute to innovative projects. I have a strong appetite for learning and relish the opportunity to tackle new challenges head-on. To me, a good project is like to preparing a well crafted meal. It involves combining all the ingredients, seasoning with a personal touch, and culminating in a delightful and satisfying outcome.

# Jakub Witkowski

Web Developer

## PROFILE

As a career transitioner from an Award-Winning Designer to a Web Developer, I see this journey as the natural next step in my professional evolution. My design skills and thirst for innovation, honed through years of architectural excellence, now fuel my drive to lead cutting-edge digital projects, crafting web solutions infused with creativity.

## EXPERIENCE

September 2021 - Current

**Design Director Freelance** | Luxembourg, Luxembourg

- Participated in meetings to discuss assignments and ideas, implementing creative vision.
- Lead and directed design and production teams for public architectural projects, creating unique designs within required timelines.
- Utilised Photoshop, Illustrator and InDesign software to execute designs and produce different layouts, integrating texts and images.

February 2021 - August 2021

**Architect Archibureau Pawlowski** | Luxembourg, Luxembourg

- Used AutoCAD and REVIT to complete accurate and detailed designs for client presentations and drawings.
- Demonstrated analytical thinking to decipher technical information at all stages of project.
- Created computer models and rendering to bring designs to life and help clients visualise buildings.

December 2017 - June 2020

**Graphic Designer GS Code Ltd.** | Gdansk, Pomeranian District

- Worked with clients to define marketing and design vision for various graphic design projects.
- Utilised extensive knowledge of Adobe Photoshop and Illustrator to create high-quality images.
- Built and maintained strong working relationships across teams to keep design consistency across all media.

## EDUCATION

2020

**Master of Science** | Architecture  
KTH Royal Institute of Technology,  
Stockholm

2015

**Bachelor of Science** | Architecture  
Queens University Belfast, Belfast
